Compound

Truck

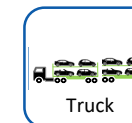

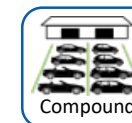

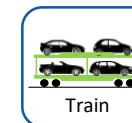

Barge

Topics discussed & guests invited

- Brexit: **Damian Viccars**, World Shipping Council (Southampton)
- AIAG Port Quality Assessment Tool & Project on Port Efficiency – trial by ABP & proposal by **Renault-Nissan-Mitsubishi** (Southampton)
- EU Digital Transport and Logistics Forum (DTLF): focus on electronic documents & Maritime Single Window

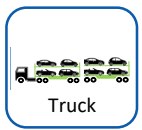

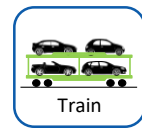

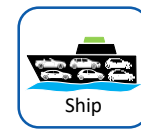

ESSF - European Sustainable Shipping Forum

- ECG accepted as observer to ESSF plenary meetings (next one on 1st June in Brussels)

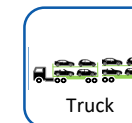

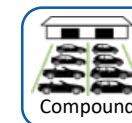

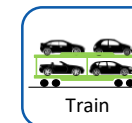

- Full member of Subgroup on Competitiveness (attended latest meeting in September 2017)

ESSF - European Sustainable Shipping Forum

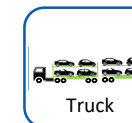

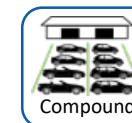

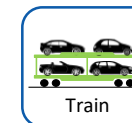

- Currently two new Work Packages, on:
 - Enhancing the competitiveness of EU Short Sea Shipping (leader KVNR – Dutch Shipowners)
 - Mapping and fitness check of the applicable EU and international regulatory framework (leader ECSCA)

Future projects for M&P WG

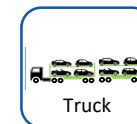

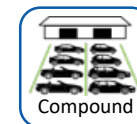

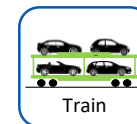

- Maintain meetings at ports, with focus on visits to members' terminals (also inland ports)
- Advance on ECG projects such as Green Award, Port Quality & Port Efficiency (while prioritising members' concerns)
- Continue working within ESSF towards 2020 deadline for worldwide sulphur cap of 0.5%

Future projects for M&P WG

- Enhance collaboration with ECSA, WSC and ESPO on SECAs, emissions, PECs, e-Manifest, Single Window etc.
- Invite European Commission officials for regular updates (from Ports & Inland Navigation and Maritime Transport & Logistics Units)

The Association of European Vehicle Logistics
